

Jorge Ruiz de la Torre Bertolin

Software Developer | Full Stack Engineer

Miami, Florida | jorge@macdiego.com | linkedin.com/in/jorgerdelat

SUMMARY

Full Stack Software Developer with ~4 years of experience building backend systems, data integration platforms, and web applications. Strong in Java/Spring Boot and C#/.NET, with React experience and recent work shipping AI-enabled tools (web crawling, PDF analysis, LLMs). Comfortable translating business needs into reliable technical solutions in cross-functional teams. Fluent in English, Spanish, and French. Based in Miami, Florida.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, Java, C#, .NET

Backend: Spring Boot, Spring Framework, REST APIs, MySQL, JWT, JUnit, Mockito

Frontend: React, React Router, Angular, Vite, Tailwind CSS

AI & Data: LLMs, Prompt Engineering, Web Crawling, Playwright, PDF Parsing, ETL / Data Integration

Cloud & Tools: Cloud computing, Vercel, Stripe, Git, Unit Testing, Excel Automation

EXPERIENCE

Full Stack Developer

Nov 2022 - Dec 2025

Solera Inc | Seville, Spain

- Developed and enhanced a Data Integration Middleware (ETL) platform for moving and transforming business data across systems.
- Built features with C# .NET and React.js; wrote unit tests; contributed to process optimization, scalability, and legacy modernization.
- Partnered with cross-functional teams to clarify requirements and deliver production-ready technical solutions.

Software Development Bootcamp

Sep 2022 - Nov 2022

Solera Inc | Seville, Spain

- Completed intensive onboarding bootcamp focused on modern software development practices and technologies.

Software Engineer

Jun 2021 - May 2022

Capgemini | Valencia, Spain

- Developed new backend features using Java and the Spring Framework; improved test coverage with JUnit and Mockito.
- Mentored and supported new interns joining the engineering team.

Consultant

Jun 2020 - Mar 2021

Edicom SL | Valencia, Spain

- Implemented EDI data integration and automation: transformed ERP data into standard formats and configured external connections.
- Validated integrations with clients to ensure accurate data transmission and regulatory compliance.

Customer Success

Jan 2026 - Present

Zumex Group | Miami, Florida

- Supported product presentations and distributor relationships; collaborated with sales, marketing, and technical teams.
- Independently built an AI-powered dealer intelligence platform (see Projects) to qualify commercial partners across North America.

SELECTED PROJECTS

Zumex Dealers & Distributors Scraping (AI Platform)

2026

- End-to-end AI platform that discovers, analyzes, and scores foodservice equipment dealers in North America using crawling, PDF analysis, and LLMs.

World Cup Family Pool 2022 & 2026 (Web Apps)

2022 / 2026

- Prediction platforms with live rankings, schedules, brackets, and scoring. 2022 version: React + Spring Boot; 2026 version expanded with badges and richer tournament views.

Coworking Management System (Angular + Spring Boot + MySQL)

2021

- Full-stack platform with JWT auth, reservations, Stripe payments, invoices, company management, and admin dashboard. Final Degree Project.

Sumero Puzzle Generator (Java / JavaFX)

2022

- Constraint-satisfaction generator for valid Sumero boards with validation and Excel automation for playable layouts.

EDUCATION

Bachelor's Degree in Computer Engineering

Sep 2015 - Jul 2022

Polytechnic University of Valencia - INSA Lyon (Erasmus Program)

Specialization in Software Engineering. Final Degree Project: coworking management website.
